

Methodology for IL-514 - DuPage County CoC

Sheltered Population Total

1. What data source(s) was used to produce the total number of people included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? Please indicate the percentage of the PIT count derived from each of the sources. (If a source was not used, please enter zero).

HMIS Data	96%
Provider-level surveys	4%
Client-level surveys	0%
Observation	0%
Other	0%
Total	100%

2. Was the CoC able to collect information about the number of people being sheltered on the night of the count from all emergency shelters, Safe Havens, and transitional housing projects listed on the HIC or only some? listed on your HIC or only some?

- Complete census count

3. What information or method(s) was used to de-duplicate the count of the total number of people included in the sheltered population?

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number

Sheltered Subpopulation

4. What data source(s) was used to produce the demographic and subpopulation data included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? (select all that were used)

- HMIS Data
- Provider-level surveys

5. Was the CoC able to collect information about the demographic and subpopulation characteristics of all sheltered people or only some?

- All sheltered people

6. Looking at the change in your sheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below.

- Change in transitional housing capacity

Please provide a brief description of these specific factors (500 word limit):

Our sheltered PIT count increased by 19 people from 2019. We had an increase in Transitional Housing units and beds, which includes a new Joint Transitional/Rapid Re-Housing project and 2 current projects that expanded their capacity. The overall capacity increased by 5 units and 17 beds.

Unsheltered Population

7. What approach(es) was used to count the total number of people included in the unsheltered population during the PIT count. (select all that were used)

8. What information or method(s) was used to de-duplicate the total count of people in the unsheltered population? (Check all that apply)

Unsheltered Subpopulations

9. What approach(es) was used to collect demographic and subpopulation data about unsheltered people included in the unsheltered population during the PIT count?

10. Were all people who were encountered during canvassing on the night of the count or during post night of the count PIT activities asked to complete a survey/interview?

- All people encountered were surveyed

11. What information or method(s) was used to produce an unduplicated total count of homeless people across your sheltered and unsheltered populations?

12. Looking at the change in your unsheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below

Please provide a brief description of these specific factors (500 word limit):
